

Healthy Workplaces Campaign

Working Together for Risk Prevention

As part of European Week for Safety and Health at Work, the Health and Safety Authority in partnership with SIPTU are holding seminars in Dublin on 21st October and in Galway on 23rd October. The theme, *"Working Together for Risk Prevention"*, will have a particular focus on the important role of Safety Representatives.

The seminars will focus on encouraging managers, workers and other stakeholders to join forces to improve safety and health. Creating a healthy and safe workplace is not solely the responsibility of management. There is a big incentive for employees to improve occupational safety and health as they are often the ones who suffer most from any failing.

Attend this **FREE** seminar and hear from SIPTU representatives on the role and functions of the Safety Representative and the benefits of the Safety Representative network. Speakers will also include the ex-Safety Representative of Tara Mines and a HSA field inspector who will outline a typical inspection process.

Seminar 1: Monday October 21st – Dublin

Venue: Communications Workers Union, William Norton House, 575-577 North Circular Road

Seminar 2: Wednesday October 23rd - Galway

Venue: Connacht Hotel, Dublin Road, Galway City
